ABOUT HAUCK USA

hauck has been doing business globally since 1923. In August 2022, hauck acquired the US Division of Legler Toys to become a major distributor of toys and gifts in North America. Through our domestic US warehouse in Pennsylvania and import programs, we continue driving value and accessibility for our customers. Hauck is a well-established German developer and producer of toys and baby products. With this acquisition we now offer a wider range of products within our portfolio.

We have something for everyone!

Hauck USA has four major toy brands in our portfolio. These brands include: hauck ride-on toys for babies and youth, mojo hand painted animal figures from the UK, Nothing But Fun Toys, our curated classic pretend play brand and small foot from Germany, our featured wooden toy line. We have exciting innovations from each brand for 2024. We are so proud to offer such a wide range of toys as well as unbeatable customer service.

Thank you!

We want to take this opportunity to thank each and every one of our retail partners for putting your trust in us and bringing us to where we are today. We come to work every day for you. Our commitment is stronger than ever in developing our partnership with you during this exciting time.
